
Outpunk is dead.

This is old news but maybe new for some of you. To find out what killed Outpunk, you must pick up the last issue of Outpunk magazine, issue #7. In it, you will find:

-letters
-rants
-"Queers 'n' Hip-Hop" - a special report!
-the Chris Polaris top ten
-"AIDS as Biowarfare" article
-Cypher in the Snow under attack
-"Fuck Yr Booking Life"
-Death row inmate Reginald Lewis

-ads.

If you already know what Outpunk is about, you cannot miss this issue. Order it and selected back issues, while they last! Don't miss out.

What is Queercorps?

If you read the last *Outpunk*, you'd already know that Queercorps is a new record label, in the spirit of Outpunk. But some things have changed.

Queercorps is an underground record label devoted to the new styles on the block. On the horizon: hip-hop, jungle, electronic, digital hardcore, experimental, and even analog rock. Break the rules. Fuck it up for everyone. Contaminate.

You are now informed. Stay tuned for more to come. You will receive updates when new releases are available. You're on the mailing list - keep in touch with address changes or if you want us to remove you from the list.

You Have The Technology. How will you use it?

Out now!

"Join the Queercorps", a four song 12" EP (qc101) featuring digital remixes of your favorite queercore sounds like you've never heard before. A track listing:

- "Join the Queercorps" by Jack Acid and Chris Polaris
- "Contention (8 bit macintrash mix)" by 680x0 and Mukilteo Fairies
- "Deattached (A Maximum Volume Interpretation)" by Christoph de Babalon and Team Dresch
- "Lewd Lewd Lewd (Akuma Mix)" by K. O. and Behead the Prophet NLSL

Out in May:

Cyryus "The Lyricist" CD (qc102)

The debut album by this hip-hop visionary, as featured in *Outpunk*'s "Queers 'n' Hip-Hop" article... Cyryus makes her gigantic mark on the scene with an entirely self-produced album (with a little help from the studio techs). One-hundred percent raw emotion - Cyryus gives you everything with this mighty effort - from battle rhymes to bell chimes to hard times and more. What does your soul look like?! Also featuring fellow article mate and emerging emcee N. I. DoubleK. I., and a cast of characters.

Here is the official list and prices of both Queercorps and Outpunk products. Read it carefully before ordering.

All of these items are being carried "exclusively" by Chainsaw Records, who you may already know and order from. Please do not order directly from us unless you want to wait longer. You can also request a full catalog from Chainsaw with all of their fine queercore product (Team Dresch, Sleater-Kinney, the Need, Longstocking).... AND, Candy-Ass Records products as well (The Lookers, Cypher in the Snow, Vegas Beat, and more). One stop queercore shopping is now yours!

Some of them will remain in print for a ways into the future. Some will definitely sell out and many will NOT be repressed or reprinted. So, if you were hesitating on buying something, perhaps now is the best time, before it's too late...
